SLDMWA Mobile Lab Services Program

Westlands' water users have an opportunity in 2001 for cost-shared irrigation system evaluations and pump efficiency testing through the San Luis Delta-Mendota Water Authority. Grant funds from the USBR will pay for 50% of the cost and the water user will be responsible for the remaining 50%. The total costs are $600 for an irrigation system evaluation and $125 for a pump efficiency test. The water user's share, $300 or $62.50, respectively, will be billed on the monthly water bill. The contractor will provide the detailed results of the evaluation directly to the water user.

Availability will be first come first served for all water users in member districts in the Authority who have agreed to participate. If more than one evaluation are combined into one application, evaluations will be conducted only as long as funds are available. This service is available now till the end of December, or until the cost-share funds run out. Complete the application form below and mail to Westlands Water District, PO Box 6056, Fresno 93703, or FAX to (559) 241-6277. Contact Jerry Robb at (559) 241-6237, jrobb@westlandswater.org, with any questions.

Mobile Lab Cost-Share Application

Number of irrigation system evaluations _____ , approx. dates _____

Number of pump efficiency tests _____, approx. dates _____
