- **2011-2012 Water Supply Update**

## **2011-2012 Water Supply Update**

Today, the official allocation for south-of-Delta CVP agricultural water service contractors was increased from 55 percent to 65 percent. Additional precipitation in California, which has been used to update runoff projections, allows for this increase to the allocation.

The Bureau of Reclamation has committed to monitor all developing water supply data and look for additional opportunities to increase the allocations in the coming weeks.
